# A Piece of History

The Statue of Liberty, located on Liberty Island in New York, was given to the United States as a present from France on July 4, 1884. The statue was still in France at the time. It was taken apart and then shipped in sections to the United States in 1885.

A total of 350 pieces of the statue were shipped on the French transport ship *Isero*. The pieces were shipped in a total of 214 crates.

1. Suppose that, after arriving in the United States, it took two days to remove the first 108 crates. How many crates were still on the ship?  
\_\_\_\_\_
2. Suppose four different pieces of the statue had the following weights: 4,219 lb; 3,182 lb; 876 lb; and 1,215 lb. Find the total weight of the four pieces.
